

Anytime an upstart comes into an established businesses territory the big guys attempt to stop them through any means possible. This bill is a continuance of the ridiculous behaviour of Corporate America. I find it to be disgusting. The NAB thinks they are my parent and can tell me what I can and cannot listen to. All to protect their profits. That is the only thing driving them. Please see this from the viewpoint of the people (not corporations) for once and allow the market and the consumer to set what is and is not available for consumption.
